

The Professional Registers

| Record Set | Description |
|------------|--|
| 96001 | <p>Register of Chiropractors, Osteopaths, Pharmacists, Dentists and Dental Hygienists Nov 26, 1923-1952 Affidavit forms showing name of applicant, age, office address, date and number of license, nationality, signature of president and secretary of governing board of his profession, of applicant and of county clerk, some records are duplicates of those actually created earlier and lost in the 1906 earthquake. This Volume is indexed in the front. It is then divided into sections according to the type of certificate: Chiropractic Pages 1-98 (61-98 are blank); Chiropodist Pages 99-101A; Optometrists Pages 101A-113 (This was an added section); Osteopaths Pages 101-164 (102-164 are blank); Osteopath(physician/surgeon) Pages 165-200 (167-200blank); Osteopath(drugless) Pages 201-250 (205-250 blank); Pharmacists(licensed) Pages 251-300 (258-300 blank); Pharmacists(registered agent) Pages 301-350 (304-350 Blank); Dentists Pages 351-400 (pages 397-400 blank); Dental Hygienists Pages 401-440 (403-440 blank); Pages 441-464 are missing from book; Physiotherapy Page 465 Ledger 1 18 1/2 x13x3 WPA #109 p 53 WPA lists 3 volume. One is our 96004 Register of Dentists. One "Roll of Dentists" 1885-1906 is missing at this point.</p> |
| 96002 | <p>Physicians, Surgeons & Optometrists Oct 1876-Mar 1929 Certificates showing education, diploma, signature of president and secretary of the state board of medical examiners, date and signature of county clerk some are typed and some are handwritten - arranged chronologically. There maybe a chronology of the places the individual has practiced. Not only Physician, Surgeons and Optometrists are included. There are also records for Veterinarians, Osteopaths, dentists, Pharmacists and Midwives..Ledger 1 14 x 8 1/2 x 3/4 WPA #110 pg 53; Coy p44 Medical Certificates 1876+ The binding on this volume is showing stress. It might be worthwhile to make this a scan project. It would be small enough to include the complete ledger on one CD for access. SMC Clerk Indexed using 96003 by Ken Tessendorf/ Checked and corrected using this volume by Cath Trindle.</p> |
| 96003 | <p>Index to Medical Licenses 1876-1931 Index of physicians granted licenses to practice medicine in San Mateo County, gives volume and page of Doctors Certificates; Index to 96002 Ledger 1 8 x 9 3/4x1/2 WPA #111 pg 54 This is a typed copy. WPA listed as handwritten so this might be a replacement for an original version. The original version might still exist. The index is nearly complete, three missing entries were found and some mistakes by the original indexer. SMC Clerk Computer index by Ken Tessendorf. [This was an index to other records so is not identified in the final SMCGS index]</p> |
| 96004 | <p>Register of Dentists May 23 1903-July 26 1935 Name of Applicant, age, office address, date & number of license, nationality, signature of president & secretary of the governing board of the appropriate agency. Signature of applicant and of the county clerk. Only the first 36 of 200 pages are filled in Ledger 1 9 x 14 x 1 WPA 109 Coy Page 44 WPA lists three volumes third is our 96001. Coy lists 2 volumes, one of them 1885-1906 is missing from this collection. SMC Clerk Indexed in front. Computer Index by Ken Tessendorf</p> |
| 96005 | <p>Medical Certificates 1940-1970 Arranged Alphabetically within each volume. 12 3/4 x 10 1/2 x @4 Post WPA and Coy I would think that an index to these certificates probably exists in the clerks office. We should check before doing any type of indexing. The first volume would be the only one likely to fit in a 1950 cut off date for indexes. [This record group was not included in the SMCGS index]</p> |
| 96006 | <p>Index to Register of Doctor's Certificates Aug 10, 1914-May 29, 1951 These certificates give the University from which the Dr. graduated and the date. Besides regular certificates this volume includes reciprocity certificates which also give the original licensing state This volume was the second listed in WPA #110 and Coy pg.44. The index in the front of the volume was computerized by Jack Taylor and Bob Tousey and checked against the actual volume by Cath Trindle.</p> |

The records indexed her are located in the San Mateo County Record Center at Tower Road in San Mateo. Contact the San Mateo County Records Office for information on obtaining copies.
